Detailed Project Description and Justification:

For several years, Territorial Sportsmen has worked collaboratively with the Department of Natural Resources, Division of Parks & Outdoor Recreation to select sites on state parks land and build public use cabins. These cabins are valuable public assets, owned by the state and available for rental by the general public through the division's website.

The cabins have been highly successful, and are heavily used by hunters, fishermen, families, tourists, kayakers, campers, recreationists, and independent travelers. Demand for cabins significant exceeds supply during most months of the year.

The funds from this appropriation will purchase lumber and other building materials, and pay portions of the cost of transporting construction supplies and equipment to the cabin sites. Territorial Sportsmen leverages state dollars heavily by donating the use of private boats, some construction equipment, and most of the labor. In-kind donations will likely reach \$50,000.

Territorial Sportsmen has a history of responsibly managing comparable grants in the past, and has lapsed funds appropriated for cabin construction when donations exceeded expectations.
